Name of Candidate: Dr Sandile Buthelezi
Name of Nominator: Pumza Cembi
Reason for Nomination:
Candidate is aware and has accepted nomination: Yes

Sandile Buthelezi is a seasoned medical practitioner with more than 16 years' experience in health governance and policy environment in both the public and international non-profit sector environment. After serving as a Clinician as well as the Medical Superintendent in a number of hospitals in KwaZulu-Natal, Sandile served as the KwaZulu-Natal Provincial Head of the HIV, TB and Maternal and Child Health programs for 10 years, during which tenure he led the implementation of the KZN Antiretroviral program which to date has registered more than 1 million patients ever initiated on ART since 2004.

Name of Candidate: Dr Peter Manyike
Name of Nominator: Dr Timothy Tucker
Reason for Nomination: Peter has been a health professional in the HIV development sector since 2006. He is an accomplished pharmacist, with deep insights into the SA public healthcare sector. As head of SEAD Health Programs and Deputy CEO, he has diverse experiences of the general HIV sector, as well as specific insights into pharmacy practice and supply chain management in the primary health care settings. Peter has a wealth of knowledge of the limitations that are seen in pharmacy practice in SA, as he leads a pharmacy team in multiple provinces and districts trying to improve practices. Peter is also lead on a five year Human Resource for Health (HRH) grant supporting the DoH in its endeavours to augment human capital in poorly functioning districts in SA. Peter knows the donor environment well, as SEAD is a sub-recipient of multiple grants since 2006. He also has good knowledge of corporate governance and how businesses should operate. Peter is an excellent candidate for the board of the Southern African Clinicians' Society. If elected, he would be the first pharmacist to act as a Society board member.

Candidate is aware and has accepted nomination: Yes

Dr Peter T. Manyike is the Co-Founder and Deputy CEO of SEAD Consulting (Pty) Ltd, a strategic management and health consultancy with offices in Cape Town and Pretoria. Peter is a pharmacist by training and holds the following academic qualifications: B Pharm, MSc Med (*Cum Laude*), and PhD (University of Washington, Seattle - USA, 1999). Peter's work experience includes hospital pharmacy, pharmaceutical manufacturing, clinical research, and work experience at an integrated vaccine research and development environment at the South African AIDS Vaccine Initiative (SAAVI). Peter's work experience includes hospital pharmacy, pharmaceutical manufacturing (both processing and packaging - Eli Lilly and Schering Plough), clinical research (Bayer Healthcare, Roche Products, and ICON Clinical Research), and work experience at an integrated vaccine research and development environment at the South African AIDS Vaccine Initiative (SAAVI), a lead programme of the Medical Research Council of South Africa (MRC), Cape Town, all in South Africa.
